### Community Connection Abstracts

Akanbi-Akinlolu, Toluwalase, [Exploring intersectionality as a Physics education research methodology](#)

Bridges, Bill, [A Gathering of Students hosted by PERCoGS](#)

Burciaga, Juan, [Conversations in the PER of the IPLS Course](#)

Lindell, Rebecca, [Mid-career Physics Education Researchers Back on the job market](#)

Lui, Kristine, [Initiating PER Collaborations with Two-Year Colleges](#)

Mason, Andrew J., [Whither PER? Past, Present, and Concerns about the Future](#)

McKagan, Sam, [Building a community of Tutorial implementers](#)

Thacker, Beth, [QISE Research, Resources and Community](#)

Zimmerman, Charlotte, [Mathematical Reasoning in Algebra-Based Physics](#)

### Contributed Poster Presentation Abstracts

Affriyenni, Yessi, [Faculty perceptions of the use of Teaching Innovations in Second-Year Physics](#)

Akanbi-Akinlolu, Toluwalase, [Sense of Belonging and Perceptions of Learning of STEM undergraduate students](#)

Alesandrini, Anne, [Students' Perceptions of How Instruction Impacts Their Ideas](#)

Allen, Scott E., [Actionable Implications of 21st Century Neuroscience, Skeptics Welcome](#)

Allen, Scott E., [Universal Framework for Implementing Best Practices in Any Context](#)

Allen, Winter Rose, [Assessing Student Scientific Argumentation Using Natural Language Processing](#)

Arnell, Jared, ["Instead of gravity pointing down, it's now pointing up": Enhancing physics students' connection between mathematics and mechanism](#)

Atencio, Camila, [Skills for Guiding Students' Career Success in a Physics Class](#)

Ballard, Brett, [Redesigning Legacy Conceptual Inventories: Validation Framework for 1-D Kinematic Items](#)

Banner, Patrick, [Activities and Survey Results from a Graduate Student Mental Health Task Force in Physics](#)

Bano, Roshni, ["Construction workers for the bridge": relationalities encountered by a physics teacher in an RET program](#)

Bauman, Lauren C., [Gaining power and shaping space through helping in introductory physics classes](#)

Beverly, Nancy, [Can introductory physics be a pump and not a filter for the IPLS student?](#)

Borish, Victoria, [Affordances and challenges of incorporating a remote quantum matter experiment in upper-division physics courses](#)

Bott, Theodore, [Exploring access in computing and active learning course materials](#)

Bridges, Bill, [Investigating measures of graduate student retention](#)

Brundage, Mary Jane, [Introductory and advanced students' difficulties with heat transfer using a validated conceptual survey instrument](#)

Burns, Andrew, [Emergent Explicit Regulation: Contrasting Group Behavior at Two Different Times](#)

Burris, Ryen, [The adaptation mindset: student evaluations of fairness in a conceptual mastery system](#)

Buzzell, Alexis, [Certain bodies in uncertain fields: Thinking about gender through queer theory and quantum mechanics](#)

Byrd, John, [Validating a measure of STEM Students' SE for a Mixed Methods Research Design](#)

Cao, Ying, [Pre-service Elementary Teachers' Self-Efficacy and Understanding of Scientific Inquiry](#)

Carter, Larissa J. G., [Students attribute myriad cultural factors to their sense of physics](#)

Cash, Cai E., [It's not just the writing: Designing science notebooks to engage youth in informal environments](#)

Cervantes Juárez, Erika, [Enhancing the Learning Science and Engineering with Electronic Spreadsheets Cycle with Generative Artificial Intelligence: A case of study](#)

Chatta Subramaniam, Ravishankar, [Characterising STEM Ways of Thinking in Engineering Design \(ED\)-based tasks](#)

Chen, Zhongzhou, [Achieving Human Level Partial Credit Grading of Written Responses to Physics Conceptual Question using GPT-3.5 with Only Prompt Engineering](#)

Collins, Lauren, [An Examination of Professional Learning Communities Creating a Culturally Relevant Approach to Teaching Energy](#)

Conlin, Luke D., [Digging in: Attending to students' epistemic emotions while computationally modeling in physics](#)

Conte, Alexander, [A preliminary case study on the impact of the cultural narratives of individualism, meritocracy, and rigor on collaboration](#)

Dachille, Frank, [Beyond Retention: The Design of a New Peer Mentoring Program at MSU](#)

Dalka, Robert P., [Investigating outcomes for physics faculty in a change leadership institute and characterizing the physics programs that participate](#)

Descamps, Ian, [Playing around with theory: Multiple perspectives on student activity in an introductory lab](#)
